BENTO

~Your student community, in one place~

Our Idea:

A centralized, mobile-friendly platform where students can discover, support, and promote student-run businesses, clubs, organizations, and campus events.

Created by: Adrian Laguna, Kadie Jenkins, Mariam Kerzazi, and Harshvardhan Kamble

WHAT PROBLEMS ARE WE SOLVING?

- **Hard to Discover**
  - Student businesses are difficult to find
  - Information is scattered across Instagram, TikTok, GroupMe, etc.
  - No centralized campus-specific place to discover student businesses
- **Limited Trust**
  - Students may encounter scams or unreliable sellers
  - Little accountability for fake or inappropriate listings
  - No consistent way to verify student businesses
- **Difficult to Find What Matters**
  - However, the large amount of information can make personalized discovery difficult
  - Smaller/newer organizations can struggle to stand out

Panther Involvement Network (P.I.N)

What P.I.N does well:

- Connects students with campus organizations
- Provides organization profiles
- Lists campus events
- Helps students get involved

Issues:

- Doesn't center student-run businesses
- Large amount of content
- Discovery can feel crowded
- Primarily focused on organizations/events

HOW ARE WE DIFFERENT?

Our platform will be designed specifically for the student community, rather than being a general social media or marketplace platform

Student Businesses

- Services like Photography, Beauty, Tutoring
- Handmade products, clothing, art

University:

- Sports Games, Fundraisers
- Career Exploration Events
- Increases student retention/engagement

Safety:

- Safer transactions than open social media/group chats
- Campus-based interactions

TARGET USERS?

General students :

- Discover products and services
- Find clubs and organizations
- Discover campus events

Student Business Owners:

- Promote products or services
- Reach customers on campus
- Build credibility through reviews
- Manage listings, pricing, and availability

Clubs & Campus Organizations:

- Promote their organization
- Advertise events
- Increase recruitment

Future Expansion:

Potentially expand beyond GSU to other Atlanta-based universities and colleges to increase accessibility and extend services to more students

OUR FEATURES & HOW THEY HELP

DISCOVER

Find what you're looking for:

- Search by Category
- Location
- Price
- Availability
- Business / organization / event type

CONNECT:

Take action:

- Save favorites
- Contact businesses
- Join organizations
- Attend events

EXPLORE

Learn more before you choose:

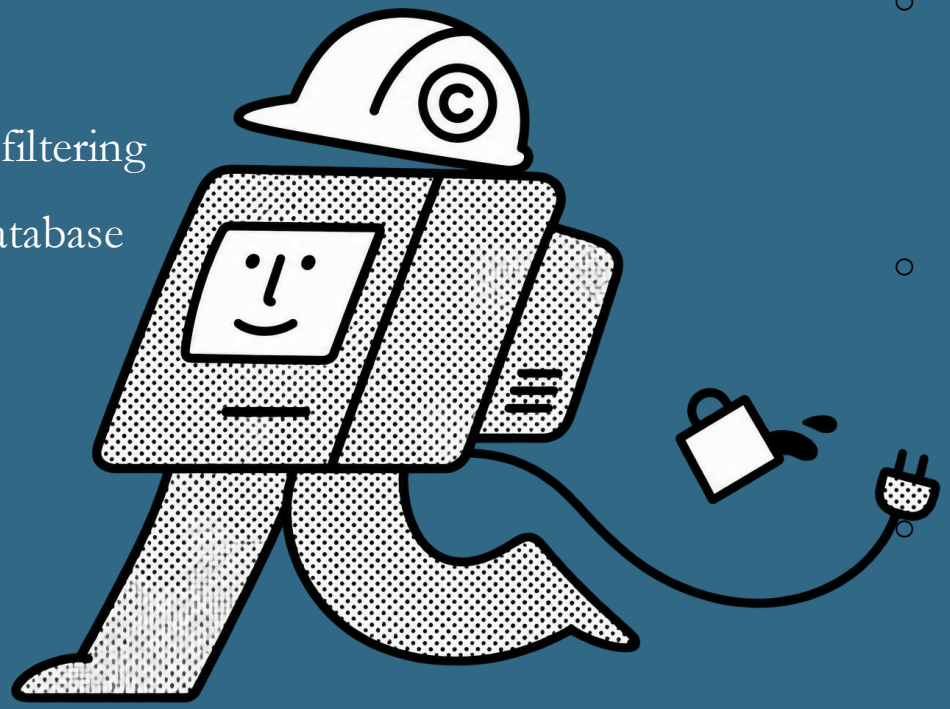

- Business & organization profiles
- Products & services
- Events details
- Reviews & ratings
- Photos & descriptions

CAN AN LLM BUILD IT?

An LLM could most likely create a basic version of our app that consists of:

- User accounts
- Business profiles
- Events
- Listings
- Search/filtering
- Basic database

But not the complex part:

- Personalized discovery
  - Recommend businesses, clubs, and events based on student interests and activity.
- Verification
  - Determine whether a user or business is legitimately affiliated with the university.
- Smart Recommendations
  - Combine interests, location, availability, and event information
- Content Moderation
  - Detect fake, spam, or inappropriate listings
